Solutions made to fit.

At TAA Connect we pride ourselves on providing tailor-made business communication solutions. So whether you're a small start-up company, a large company with expansion plans or something in-between, we have the right products to suit your business.

Voice. Mobile. Data. You name it, *we do it.*

TAA Connect first opened its doors in Brisbane in 1992 as a telephony services company, and has since grown to be one of the largest independent suppliers of hardware and communication solutions in Australia. Every year we help businesses to be the best they can be through telephony, IT, audio and video-conferencing, networking, software, point of sale, messaging, mobile and broadband solutions.

Experience

TAA Connect has been servicing Australian businesses with telephony and IT solutions for almost two decades. We began our company based on knowledge that the key to implementing successful solutions was to truly understand our clients' business, and nothing has changed. We aim not to tell you 'how things will be' but rather, ask 'how would you like things to be?' We hear you.

Voice

From basic handsets to feature-rich supersets we have the device to suit the needs of your business.

Mitel communication systems, NEC telephone systems, Cordless phone systems, Software platforms, Mobile solutions, Data solutions

Mobile Solutions

These days mobile phone options are endless. So what's best for your business? Every year TAA Connect services the mobile needs of thousands of Australian companies.

Handsets (from Blackberry, Nokia, Samsung, Motorola), Data Cards and NEXT G Network

Data Solutions

Good businesses need good tools. TAA Connect uses only the best-of-breed data products to ensure exceptional functionality.

Fibre optic and network cabling, Data cabinets, Laptops, Servers, Monitors, Scanners, Printers

“
At TAAConnect we are not vendor-specific, so you can be confident that you get the right product for your business. Speak to a consultant today to discuss your options. We hear you.”
